

REAL ESTATE FOR EXCHANGE

Las Cruces Chamber of Commerce Elects Officers for Year.

The office of The Herald for Las Cruces is in the Robinson Drug Store, "The Quality Store." This firm will deliver The Herald each week at the regular rate of 40 cents a month.

Las Cruces, N. M., Oct. 9.—At a meeting of the real estate men in the office of the Sattley Realty company, it was decided to organize a real estate exchange for the purpose of exchanging property and the organization was effected at this meeting, and the election of permanent officers as well as the approval of by-laws and rules for the exchange will be taken up at a meeting to be held in the near future.

The chamber of commerce is also planning to take up the monthly luncheon again as a permanent institution, and arrangements are being made to have a get together luncheon on October 23, at which time Dr. Taylor, a soil expert, will be in the valley for the purpose of giving a lecture to the farmers on the question of soil and the conserving of the natural resources of plant life.

At the monthly meeting of the chamber of commerce the following officers were elected: E. E. McBride, president; E. E. Lester, vice president; M. B. Stevens, treasurer, and Forrest McKinley, secretary. Committees were appointed for the coming year.

J. F. Winters, a recent arrival in the valley from Los Angeles, comes with the intention of buying a large tract of valley land to make a home as well as an investment.

Henry Stoes has announced his resignation from the board.

The secretary of the chamber of commerce is mailing out the new folders of the Matilla valley to inquire in the east.

Wm. A. Sutherland, whose illness took a sudden turn for the worse, has practically recovered. There were three physicians in attendance on Mr. Sutherland, the trouble being an acute attack of Bright's disease.

The wreck of the automobile of Dr. Cornell while making a hurried call from the residence of Sutherland, for stimulants to be used in increasing the heart action of the patient, blocked Main street for several hours.

The car was coming up Depot street and turning into Main street the car was in danger of running down a couple of little girls who were standing on the corner.

In missing the children the car was headed across Main street and a crowd of people gathered to see the car.

Miss Bertha Brown, manager of the Harvey newstand at the depot, is now in the subscription contest of The Herald.

The Right Thing

Our contention for years has been that we produced and sold better milk than the other dairies, and we have urged that tests be made regularly.

This is from the Bulletin issued by the Department of Health for July:

"SEE THAT YOUR MILK IS STANDARD."

"Commencing with this issue of the Health Department Report, we will publish a list of analyses of milk made during the month, with the names of dairies from which samples are taken. It is our purpose to see that the people of El Paso get good milk, and we believe that this method will assist us in our endeavor. It will let the public know what kind of milk it is getting, and also give the worthy dairymen due credit for his efforts. Our city standard calls for 12 percent solids, 4 percent butter fat and a bacterial count of 100,000 per cubic centimeter, so if your dairyman is furnishing you milk below this standard, you are not getting the best. In a comparison of our analysis and that from other places we believe that the people of El Paso are getting a little better milk than most places and we shall see that they continue to do so. The bacterial count of cleanliness in handling the milk, as anything over 100,000 shows carelessness somewhere in this respect."

As some others have failed to submit the necessary evidence that the improvements were actually made upon the land, or if made in case the improvements consist of fencing, it is necessary to show that the fence was necessary to protect the crops to be raised on the land.

Contest Decisions. In the case of Juan M. Barera vs. Pink Davis, involving title to the east half of northeast quarter and east half of northwest quarter section 34, township 14 south, of range 2 west, the commissioner dismissed the contest.

FLOODS MAKE THE RIO GRANDE ROOM

Colorado and Northern New Mexico Washed Out by Heavy Rain

The river is now running more water since the spring floods, as a result of heavy rains north of Albuquerque extending into Colorado. Much damage has been done in northern New Mexico, especially around Farmington, as a result of the heavy rains, and railroad tracks and bridges have been washed out.

The stage coach has replaced the railway in southwestern Colorado, to accommodate the few who care to risk transportation over the flooded districts. A great area having been inundated for 48 hours, the result of heavy rains the past week which have caused all river and stream crossings to be impassable.

The damage to towns and farm property will reach into hundreds of thousands of dollars, according to reports from the flooded area. Extensive damage has been done to the crops, and many lives have been lost, but no one has been found who can verify the reports.

Silverton, Colo., is under water three feet deep and travel over Red mountain pass, where mountain roads are washed away, is extremely hazardous. Alarming conditions are reported at Durango because of shortage in supplies. Shipments having been received there for three days. Durango was under two feet of water for 24 hours. It is reported lives have been lost at Durango and Silverton. The town of Escondido was saved by miners who dynamited the river and changed its course late Saturday night.

The entire country between Telluride and Ridgeway along the Rio Grande railway is inundated with two to three feet of water. There has been no railroad traffic between these towns for more than 24 hours.

Near Rico, a portion of the levee of the Rio Grande broke early Sunday, and before repairs could be made, part of the city was flooded, property was lost, and many lives were in danger.

Near Rico, the surging waters have been washing huge boulders down Silver creek canyon, and citizens of Rico have been kept awake two nights by the thunderous roar of the water and rocks.

Let Norte and Wagonwheel Gap are under water, and it is reported that great damage has resulted to property, the Rio Grande, Guadalupe, San Juan and Conejos rivers all overflowing their banks since early Sunday morning. Heavy rains have fallen continuously since last Wednesday at noon.

MISS HABER GIVEN OVATION BY FRIENDS

Comes to El Paso in Leading Role in Rex Beach's 'The Barrier'

El Paso gave a hearty reception to Miss Eleanor Haber at the El Paso theater last night. Miss Haber is an El Paso favorite, as she virtually began her stage career in El Paso four years ago with the Frank Leake company. Since her last appearance here, Miss Haber has improved considerably in her work, although El Pasoans always thought her very clever, and she received an ovation.

The Caudron Livestock company will import one train later this afternoon and on Monday night a train will be brought in by Biggam and Rose.

To Unclog The Pores Remove Stiffing Skin

"Clogged pores are the cause of many complexion difficulties," according to Dr. Homer Ward. "This condition makes the skin coarse in texture. It interferes with elimination of waste matter, producing a sallow or blotchy complexion, eruptions and other defects."

To open and cleanse the closed pores thereof, four cars of cattle from the Terrazas ranch in Chihuahua were imported through El Paso Monday afternoon by the El Paso Livestock Commission company. The Caudron Livestock company will import one train later this afternoon and on Monday night a train will be brought in by Biggam and Rose.
